Modules are now Content Structures

Modules was renamed Content Structures to make the hierarchy more clear in relation to content items

 **Content structures (321 items)**

<input type="checkbox"/>	Name
<input type="checkbox"/> ☆	My Offers
<input type="checkbox"/> ☆	Configuration
<input type="checkbox"/> ☆	Comment
<input type="checkbox"/> ☆	Sensor content

Remembering your preferences

Sorting choice and items per page are stored for you and used when showing next time

A screenshot of a web application interface. At the top left, there is a "Columns" dropdown menu. To its right is a "Sort by:" dropdown menu. The "Sort by:" menu is open, showing four options: "Name" with an upward arrow and a checkmark, "Name" with a downward arrow, "Updated at" with an upward arrow, and "Updated at" with a downward arrow. To the right of the "Sort by:" menu is a "Grid view" button with a grid icon. Below these elements is a table with a grey header and a single row containing a grey cell. To the right of the table is a pencil icon. At the bottom of the interface, there is a search bar with a magnifying glass icon and the text "Search". To the right of the search bar is an "Items per page" dropdown menu. The dropdown menu is open, showing three options: "10", "20" with a checkmark, and "30". To the right of the "Items per page" menu is a pagination control showing "1 - 20 of 21" and a right arrow. To the right of the pagination control is a refresh icon.

Direct access to content items from edit view

When editing a content structure, you can access the items directly with the button Content Items

 [Content structure](#)  **Direct link to content items** Content items

Pagination of content items field list and searching for a field

When a content item has many fields, you can choose how many to show per page and you can search for a specific field

A screenshot of the HALO pagination controls. On the left is a search icon and the text "Search". To its right is a label "Items per page" followed by a dropdown menu showing "20" with a downward arrow. A grey dropdown menu is open, showing three options: "10", "20" (which has a checkmark), and "30". To the right of the dropdown is the text "1 - 20 of 21", a right-pointing chevron, and a refresh icon.

A screenshot of the HALO pagination controls. On the left is a search input field containing the text "Find a field..." with a close icon (an 'X') to its right. To the right of the search field is a label "Items per page" followed by a dropdown menu showing "10" with a downward arrow. To the right of the dropdown is the text "1 - 10 of 21", a right-pointing chevron, and a refresh icon.

Drag and drop fields to change the order

You can choose the order you show fields in a content structure by drag and dropping them

Fields	
Name	
=	Field 1
=	Field 2
=	Field 3
=	Field 4

Fields	
Name	
=	Field 2
=	Field 1
=	Field 3
=	Field 4

Advanced search is now a dynamic list automatically filtering for search value

The list is automatically filtered after entering 3 characters.

Did you know that you can also search for the actual values of each field?

Field: Contains:

Content structures > Sorting of Fields > Content items (3 items) Advanced Search ^

All Columns ▾ Sort by: Name ↑ ▾ Grid view ⋮

<input type="checkbox"/> Name ^	Publish	Archived	Created by	Updated at		
<input type="checkbox"/> Autocomplete search	Draft	Empty	Elisabeth van Rompuy	Today at 2:04 PM		
<input type="checkbox"/> Dynamic list	Draft	Empty	Elisabeth van Rompuy	Today at 2:04 PM		
<input type="checkbox"/> Searching for what you need	Draft	Empty	Elisabeth van Rompuy	Today at 2:04 PM		

1 - 3 of 3

- Field 2
- Field 3
- Field 4

Export only the content items you need

Instead of exporting and importing the whole content structure, you can choose which items to be exported by checkboxing the ones you want

The screenshot shows the MOBGEN interface with a breadcrumb trail: Content structures > Export content structures > Content items (4 items). A table lists four content items, with the last one selected. The table has columns for Name, Publish, Archived, Created by, and Updated at. The selected item is 'By checkboxing the ones you need'.

<input type="checkbox"/>	Name	Publish	Archived	Created by	Updated at
<input type="checkbox"/>	You don't have to	Draft	Empty	Elisabeth van Rompuy	Today at 2:32 PM
<input type="checkbox"/>	Export the whole structure	Draft	Empty	Elisabeth van Rompuy	Today at 2:33 PM
<input type="checkbox"/>	But only the items you want	Draft	Empty	Elisabeth van Rompuy	Today at 2:34 PM
<input checked="" type="checkbox"/>	By checkboxing the ones you need	Draft	Empty	Elisabeth van Rompuy	Today at 2:34 PM

Limit the number of characters in text field

You can put a character limit to a text field

Add new field ✕

Name *
JSON key: limitTheNumerOfChara

Choose type *
Text ✕ ▼
Text - Allows you to include text with max length of 1000 characters, or the limit of your choice in the information.

Mandatory NO

Limit characters + -

Description
Description (optional)

Multilanguage field NO This option can only be enabled on content structures having at least one default language.

Show preview NO

Changes are immediately applied Create another Done

Mandatory field

Fields can be made mandatory. An item cannot be published unless this field is filled in. It can be saved as a draft when empty

Add new field ✕

Name *
JSON key: makeAFieldMandatory

Choose type *

✕ ▼

Long text - Allows you to include text in any length in the information.

Mandatory YES

Description

Multilanguage field NO This option can only be enabled on content structures having at least one default language.
